

Comac's Guaranteed Sales Program (GSP) virtually ensures you success in the sale of our hand dryers by guaranteeing the sale of our product.

No Cost & No Commitment Required Here's How it Works...

The GSP is very simple. Your company/branch will purchase 7 (seven) Comac dryers at your regular discounted price. One dryer will be a fully operational demonstration unit, complete with brand label and point of sale display stand. In addition, you will receive color brochures and spec sheets in Comac folders. The six additional units will be for your stock.

Here's the BEST Part...

If for any reason your branch has not been able to sell the six stock units in the first year, Comac will refund your cost for all seven dryers, all you pay is freight. If your branch sells ten dryers or more within the first year (easy to do!), Comac will credit your account for the amount of the demo unit and it's your to keep.
